

VISTA MARIA

FOSTER CARE
& ADOPTION

THERE ARE OVER 13,000 CHILDREN IN FOSTER CARE IN MICHIGAN

Though over half of these children call Metro Detroit their home, many do not have a permanent home. Foster children are no different than any other children. They need caring adults who will love, nurture, protect and inspire them to fulfill their dreams.

We believe deeply in the power of families, and sometimes those safe homes and supportive people are found with compassionate foster and adoptive families. So that all children will know they are worthy of love and healing, Vista Maria helps young people and families find each other.

Be the difference. Become a foster parent.
